

LunchOrganizer — User's Guide

Book, change or cancel your lunch in a few clicks

This guide is for everyone who books their lunch with LunchOrganizer. No technical knowledge is required, there is nothing to install and no password is asked for: simply open the address your administrator gave you in a web browser.

The application opens in French by default. The **FR / EN** selector at the top right of the page switches language at any time, and your choice is remembered on that computer.

The five most common situations are covered one after the other: booking for today, changing or cancelling today's booking, booking another day of the current week, booking for next week, and registering yourself the first time you use the application.

The one rule that really matters

Today's lunch can be booked, changed or cancelled until **09:00**. After that time today's column locks: the kitchen has already received the list and nothing can be changed for today any more. The following days and the rest of the week stay open as usual.

1. Booking a lunch for today

This is the most frequent task. It takes less than a minute, provided you do it before 09:00.

1. Open the application in your browser. The **Book your lunch** page opens straight onto the current week, Monday to Friday. There are no lunches at the weekend, so Saturdays and Sundays are not shown.

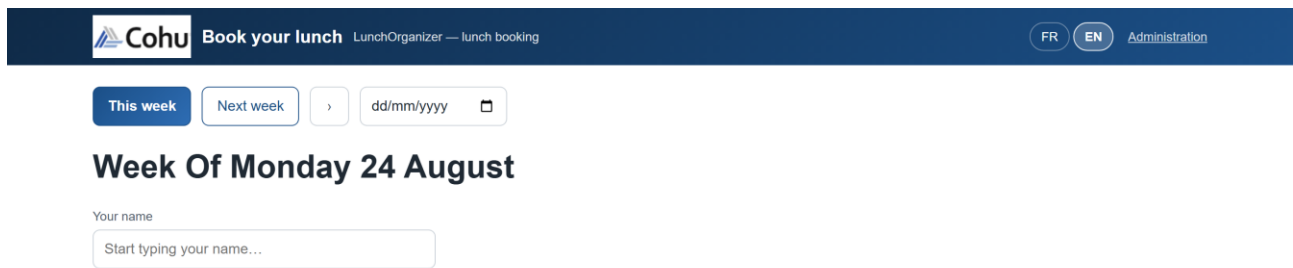

Figure 1 - The booking page as it first loads

2. In the **Your name** field, start typing your name. After the **first two letters**, a list of matching names appears. Accents and capitals do not matter: typing “chloe” finds “Chloé Bernard”.

Figure 2 - The suggestion list opens from the second letter typed

3. Pick your name from the list, either with the mouse or with the arrow keys followed by Enter. A banner then immediately summarises your situation for the day, for example “You haven't booked lunch for today yet”, followed by how much time you have left to do so.

Figure 3 - The daily banner shows your booking status and the time remaining

4. The grid reproduces the paper sheet on screen: **one column per day, one row per menu**. Each day has its own menus, its own descriptions and its own price. Click the cell for the menu you want in today's column: it becomes marked as selected.

Monday 24 August Price CHF 13.80 Past Menu 1 Émincé de poulet au curry doux, Riz basmati, Brocolis et carottes Menu 2 Tomates farcies au thon (2 pcs), Salade et crudités Menu 3 Spaghetti aux légumes grillés, Sauce crème légère, Petite salade	Tuesday 25 August Price CHF 13.80 Past Menu 1 Tomates farcies au bœuf, Riz pilaf, Légumes du primeur Menu 2 Cocktail de crevettes, Salade verte et crudités Menu 3 Gnocchi sauce tomate basilic, Petite salade mêlée	Wednesday 26 August Price CHF 13.80 Menu 1 ✓ Piccata de dinde, Fusilli au beurre, Courgettes sautées Menu 2 Assiette de fromages et viandes, Salade et crudités Menu 3 Penne au saumon fumé, Petite salade mêlée	Thursday 27 August Price CHF 13.80 Menu 1 Cuisse de poulet sauce miel-moutarde, Pommes de terre écrasées, Haricots verts Menu 2 Pâté en croûte (2 pcs), Salade mêlée avec crudités Menu 3 Ravioli trois couleurs, Sauce aux herbes, Petite salade mêlée	Friday 28 August Price CHF 13.80 Menu 1 Crevettes au curry façon casimir, Nouilles asiatiques, Petits pois et carottes Menu 2 Trio de sandwiches, Salade mêlée Menu 3 Tian de courgettes et tomates, Petite salade verte

Figure 4 - A menu selected in today's column

- Finally click the **Book my lunches** button at the bottom of the page. A green **Success** notification confirms the booking, restating the menu and the day chosen. Until that notification appears, the booking has not been saved.

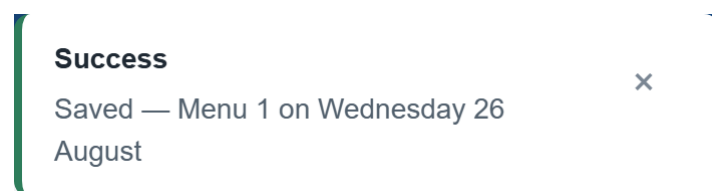

Figure 5 - The success notification confirms the booking

One lunch per day

You can only book one menu per day. If you click a second menu on the same day, it **replaces** the first one instead of being added to it.

2. Changing or cancelling the lunch already booked today

As long as 09:00 has not passed, today's booking remains fully editable. The procedure is the same whether you want to change menu or cancel altogether.

- Open the page and select your name as in the previous section. The grid shows your current booking: the cell of the menu already booked appears selected in today's column.

Monday 24 August Price CHF 13.80 Past Menu 1 Émincé de poulet au curry doux, Riz basmati, Brocolis et carottes Menu 2 Tomates farcies au thon (2 pcs), Salade et crudités Menu 3 Spaghetti aux légumes grillés, Sauce crème légère, Petite salade	Tuesday 25 August Price CHF 13.80 Past Menu 1 Tomates farcies au bœuf, Riz pilaf, Légumes du primeur Menu 2 Cocktail de crevettes, Salade verte et crudités Menu 3 Gnocchi sauce tomate basilic, Petite salade mêlée	Wednesday 26 August Price CHF 13.80 Menu 1 ✓ Piccata de dinde, Fusilli au beurre, Courgettes sautées Menu 2 Assiette de fromages et viandes, Salade et crudités Menu 3 Penne au saumon fumé, Petite salade mêlée	Thursday 27 August Price CHF 13.80 Menu 1 Cuisse de poulet sauce miel-moutarde, Pommes de terre écrasées, Haricots verts Menu 2 Pâté en croûte (2 pcs), Salade mêlée avec crudités Menu 3 Ravioli trois couleurs, Sauce aux herbes, Petite salade mêlée	Friday 28 August Price CHF 13.80 Menu 1 Crevettes au curry façon casimir, Nouilles asiatiques, Petits pois et carottes Menu 2 Trio de sandwiches, Salade mêlée Menu 3 Tian de courgettes et tomates, Petite salade verte

7. To **change menu**, simply click the cell of another menu on the same day. The selection moves: the old menu is deselected and the new one becomes active. There is nothing to delete first.

10. Click **Book my lunches** again to save the cancellation. Take care: a cancellation must also be confirmed with this button, otherwise it is not taken into account.

After 09:00

Once the cut-off time has passed, today's column is greyed out and the banner states that today's lunch can no longer be booked. Hover over a greyed cell and the application tells you why: the day is past, or the cut-off time has been exceeded. The other days remain editable.

3. Booking a lunch for another day of the current week

The grid shows the whole week, so there is nothing special to do in order to book another day: everything happens on the same screen.

11. Once you have selected your name, find the column of the day you want in the grid. Days that have already passed and days that are closed appear greyed out and cannot be clicked; all the others stay open.

12. Click the cell of the menu you want in that day's column. Remember that menus differ from one day to the next: Wednesday's "Menu 1" and Friday's "Menu 1" are two different dishes, so it is worth reading the description before choosing.

Figure 12 - A menu selected on another day of the week

13. Click **Book my lunches**. You can select several days before saving: a single click on the button confirms all the days chosen, and the notification then states the total number of lunches booked.

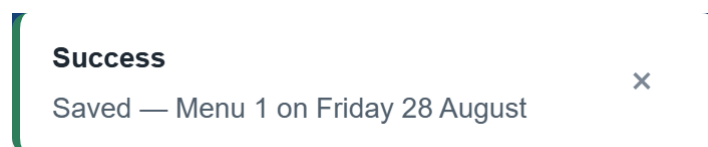

Figure 13 - Confirmation of the booking

Booking the whole week at once

Below the grid, choose a menu number then click **Apply Menu N to every open day**. The application fills in every day that is still open, then states exactly what it did: the days applied, and the days skipped together with the reason (day past, cut-off time exceeded, or that menu not offered that day). Do not forget to confirm afterwards with **Book my lunches**.

4. Booking a lunch for next week

Bookings are not limited to the current week. A selector at the top of the page moves from one week to the next.

14. At the top of the page, click the **Next week** button. The **This week** button next to it takes you back to the current week at any time.

Figure 14 - The "Next week" button, at the top of the page

15. The grid reloads on the following week. The heading spells the week out in words, for example "Week of Monday 31 August", rather than giving a week number. Every day is open there, since none of them has passed yet.

No going back

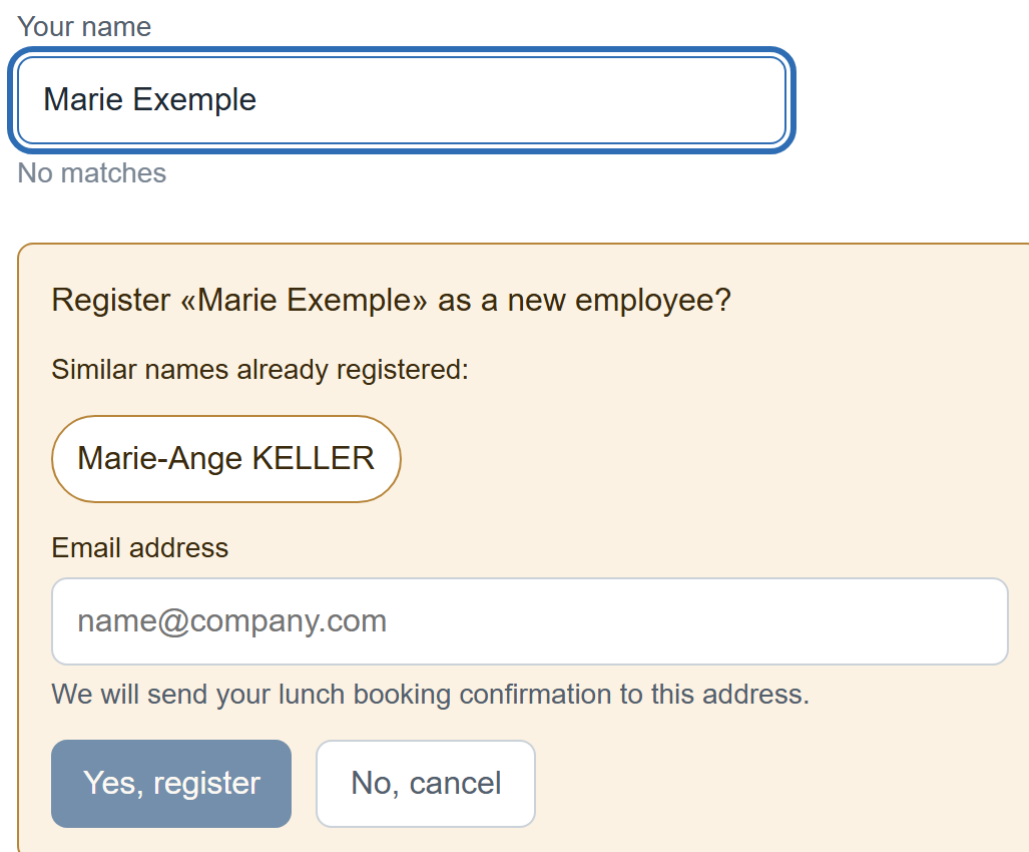

On the current week there is no “previous” arrow: past weeks can no longer be booked or consulted

from this screen.

5. Registering the first time you use the application

If your name is not in the list yet, you can register yourself, directly from the booking page and without going through an administrator.

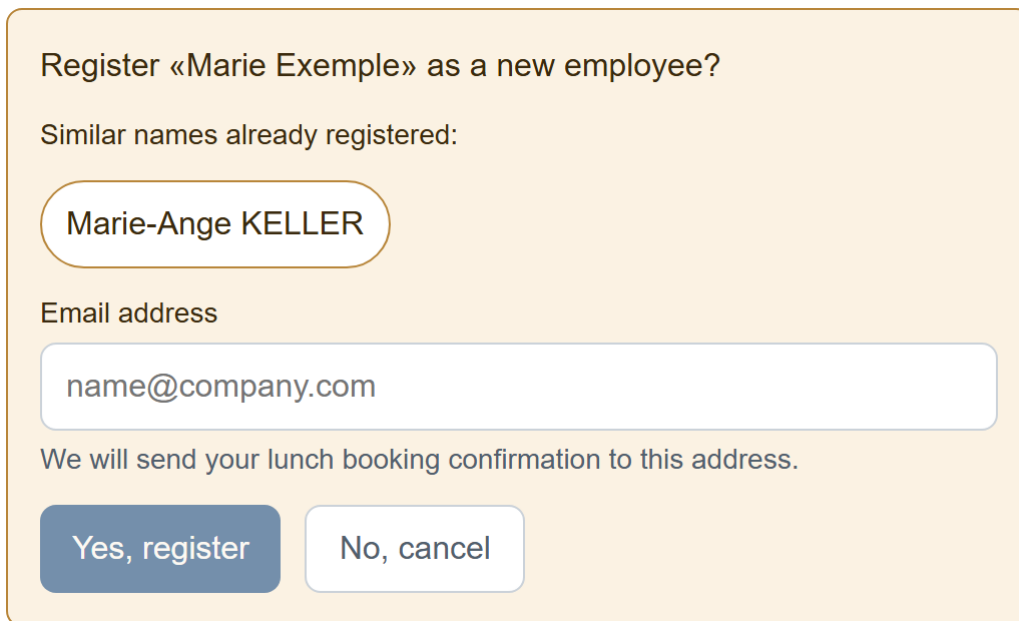

18. Type your full name in the **Your name** field. Since no employee matches, the application shows a registration panel asking “Register “your name” as a new employee?”.

The registration panel is a light orange box with a thin orange border. At the top, it says "Your name" in a small grey font. Below it is a white text input field with a blue border and rounded corners, containing the text "Marie Exemple". Underneath the input field, it says "No matches" in a small grey font. The main heading of the panel is "Register «Marie Exemple» as a new employee?". Below this, it says "Similar names already registered:". Underneath is a white pill-shaped button with an orange border containing the text "Marie-Ange KELLER". Below that is the label "Email address" in a small grey font, followed by a white text input field with a light blue border and rounded corners, containing the text "name@company.com". Below the email field, it says "We will send your lunch booking confirmation to this address." in a small grey font. At the bottom are two buttons: a blue button with white text "Yes, register" and a white button with a light orange border and grey text "No, cancel".

Figure 18 - No employee matches the name typed

19. If similar names already exist, they are offered first, under the heading “Similar names already registered”. **Check that list before continuing:** “Jean Dupont” and “Jean Dupond” are two different people, and the kitchen will cook for both. If one of those names is yours, click it rather than registering yourself a second time.

20. Enter your work **email address**. This field is **mandatory**: until a valid address has been entered, the **Yes, register** button stays inactive. If the address is malformed, the application says so immediately below the field.

Why is an email address required?

Because **every booking is confirmed to you by email**. The address entered here is the one to which LunchOrganizer will send confirmation of your bookings: it is your proof that the lunch really was recorded, and the way to check which menu you chose without having to reopen the application. It is also the reason the application refuses to register you without a valid address: without one, no confirmation could reach you. The address is used only for these confirmations.
